

Focus on Cleanup Activities at Rocky Flats Plant

The U.S. Department of Energy, U.S. Environmental Protection Agency and the Colorado Department of Health invites you to attend the Environmental Quarterly Meeting to learn about and discuss cleanup work at the Rocky Flats Plant.

The main topics to be discussed will include:

- Operable Unit 3 and the Area of Concern Report
This report discusses contamination levels in an area east of Rocky Flats that is being considered for future development.

- Operable Unit 16

This operable unit includes areas within the Rocky Flats Plant that are considered low priority for cleanup. A proposed plan for action has been developed and will be discussed following the meeting (see below).

General information about other environmental management projects will also be presented by representatives from the U.S. Department of Energy, the Environmental Protection Agency and the Colorado Department of Health.
